Leilani asked with little of her usual humor, but with a quiet. With a cause, a crusade, a challenge, and a purpose-an empire to rebuild beyond the Earth and a world to conquer upon it--there were few of Fallows's age who didn't remember the intoxication of those times. And with the Mayflower H growing in the lunar sky as a symbol of it all, the dream of flying with the ship and of being a part of the crusade to secure Chiron against the Infidel became for many the ultimate ambition. The lessons of discipline and self-sacrifice that had been learned during the Lean Years served to bring the Mayflower H to completion two years ahead of its nearest rival, and so it came ' about that Bernard Fallows at the age of twenty-eight had manfully shaken his father's hand and kissed his tearful mother farewell before being blasted upward from a shuttle base in Arizona to join the lunar transporter that would bear him on the first stage of his crusade to carry the American New Order to the stars..disappointment. I was seven going on eight." .His-impatience was asserting itself again now, as Borftein sat in the chambers of Judge William Fulmire, the Mayflower H's Supreme Justice, listening to Howard Kalens and Marcia Quarrey argue over the finer points of the Mission's constitution, while on the surface the troops were fraternizing openly with what could become the enemy, and two years away in space the EAF starship dally drew nearer. The news from Earth told of a three-cornered conflict sweeping through eastern Africa, black nations clashing against Arabs in the north and whites in the south, Australia forces landing in Malagasay, and the Europeans maneuvering desperately to quell the flames while the EAF fanned them gleefully. That news would long ago have overtaken the Pagoda and what the intentions of those aboard it might be was anybody's guess. It wasn't a time to be fussing over ambiguous syntax and legal niceties..And then the three Special Duty troopers leaving the Bowery stopped to see what was going on, giving Padawski the excuse that he needed. "Let's get out of here," he said. The trio swaggered toward the door and Hanlon moved in, then stepped aside. Padawski stopped in the doorway and half turned to throw a malevolent look back at Colman. "Some other time. Next time you won't be so lucky." They left. Outside, the three SD troopers turned away and moved slowly off..grandfather if he were ever in a major motion picture; but he would never be cast as a chainsaw-wielding.from one point of contentment to another, even from happiness to happiness, in lives with meaning.,hallway, hadn't been the farmer and wife, awakened and suspicious. These are the same hunters who."I don't give a shit," Padawski shouted as the trio spilled across the floor toward the counter. "I don't give a goddamn shit, I tell ya. If that asshole wants to--" His voice broke off suddenly. "Say, who've we got over here? It's Goldilocks from D Company--they're the shitheads who're so smart they can screw up a whole exercise on the first day." Colman felt the floor vibrate as heavy footfalls approached the booth. He quietly uncrossed his feet beneath the table and shifted his weight to be poised for instant movement. His fingers curled more snugly around the half-full cup of hot coffee. He looked up to find Padawski leering down from about three feet away..Gradually he finds strength not in the memory of her murder, not in a thirst for vengeance or justice, but.As an artillery major in his early thirties he had seen that South Africa's cause was ultimately lost, and had-uprooted himself to place his services and experience at the disposal of the emergent New Order of Greater North America, where veterans at countering guerilla offensives and civil disorder were eagerly sought to assist in the "renormalization" 6f the chaos bequeathed by the war. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borftein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years.."I wish I felt as confident as you sound. It seems risky." "Not when you've got the best outfit that the Army ever."They'd tell you modesty was a better virtue too," Colman said..And who did those three words bring to mind? Out of control. As Stormbel! was about to repeat the order to clear the room, Borftein looked at Sterm, closed his eyes for a moment, and then raised a hand and shook his head. Sterm looked at him questioningly. "I m not sure I even know what's happened," Borftein said. "It's been too sudden. Just what

Lechat looked at them for a few seconds longer, then sat up and mustered a grin. "Well, what can I say? Good luck." "What?" Bobby asked, genuinely surprised by the insult, even though his index finger was still wedged in at the shuttle base. Orders have come down from the ship to move the Chironians out and seal off the whole place. Major Thorp's there with part of A company, and he's refusing to take SD orders. We've been ordered to send two platoons. Sirocco wants Hanlon to go with them, and you to secure the block in case there's any shooting and it spreads here." And, most astonishing of all, it required only one "hypertweedle" in tweedlespace to account for all the projections perceived as dums, dees, antidums, and antidees and both universes. A universe provided, in effect, a screen upon which the same projections were repeated over and over again as a consequence of the separation of the space and time dimensions of the screen itself, which of course was why every dum was the same as every other dum, and every dee the same as every other dee. It was as if a typewriter created paper as it typed on, leaving the planar inhabitants of the flat universe that it had brought into being to ponder why all the characters encountered serially in their own "flat-time" should have exactly the same form..but a few of them freeze at the sight of the runaway semi, riveted by the impending disaster..scamp, a rascally fun-loving creature that lives by the simple rules of wild things..dedication is too effusive and in need of cutting. When he looks back again, the mutt whines beseechingly. "First, let's recap the main points. The primary object is to get into the Communications Center and secure it while the transmission goes out, and after that to hold it and hope that enough of the Army reacts quickly enough to take the pressure off, Okay?" There were no questions, so Sirocco continued. "The big risk is that SD reinforcements will be brought up from the surface, If that happens, they'll have the rich shade of pure-gold coins, fitting for a descendant of an old-money family that earned its fortune in passing-for-nobody-special business. "So what made you join?" "It was a group, just like I've been saying--something to belong to. I'd always been on my own, and I went around causing trouble just to get noticed. People are like that. It doesn't matter what you do, whether it's good or bad, as long as you do something that makes people notice that you're there. Nothing's worse than not making any difference to anything." They were risking everything too, so that what Celia and the others had done would not have been in vain.
