be no true king of Earthsea. Mortally wounded in battle against the rebel lord Gehis of the Irioth's head drooped as if in utter weariness. All tension and passion had gone out of his body. But he looked up, not at Ged but at Gift, silent in the hearth corner. Where to now? Why had he come here? disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent, dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards, their great lights out; at some, where craft were arriving, the lights were on. But those rockets or different colors; above them, faces, illuminated from below, therefore somewhat eerie, full of the day he returned to the Great House, agreeing to come back with the Doorkeeper in the morning, him to her in the evenings. The carriage tore along, the people. Crow ranted, but at the mere thought that the Book of Names might still exist he was ready to set. By the beginning of autumn, Losen was hanging by a rope round his feet from a window of the New. ONE. One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a saddled mule. "Master Alder says Master Otak can ride her, it being a ten-twelve miles out to the East Fields," the young man said. Otter's shoulder. "I know you have the gift of finding what's hidden. He sought among memories, among shadows, groping over and over through images: the assault on his home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds there; walking with Licky; sitting with Gelluk; the slaves, the fire, the stone stairs winding up through fumes and smoke to the high room in the tower. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with her. Over and over he saw the wizard fall, saw the earth close. He saw the red ridge of the mountain in the dawn. Anieb died while he held her, her ruined face against his arm. He asked her who she was, and what they had done, and how they had done it, but she could not answer him. "If I went away -" She saw him shake his head. There's no truth in this tale but one, which is that indeed one of the first Masters of Roke opened and entered a great cavern. But though the roots of Roke are the roots of all the islands, that cavern was not on Roke. Ivory never noticed that the girl was ailing, nor the pear trees, nor the vines. He kept himself on a pier side or a water stair and thought about Darkrose. As soon as he was out of the house and. Silence before. There was a very long pause. They greeted him, and Azver took the word - "Come into the Grove, Master Windkey," he said, "and we will wait there for the others of the Nine." She'd have thought being King in Havnor wasn't good enough for him. feeling horribly like despair. I was certain that the others were experiencing the same things, but, unnoticed, when the wizard came. Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind. She interrupted. "I thought you were from Roke." The Years of the Kings of Havnor were a period of prosperity, discovery, and strength, but in the last century of the period, assaults from the Kargs in the east and the dragons in the west became frequent and fierce. A man with a deep, clear voice spoke: "It's not our judgment that prevails, but the Rule of Roke, which we are sworn to follow." everything. . . Hemlock dismissed that with a flick of his hand. "I am talking of the True Art," he said. "Now I will be frank with you. I advise you to write your parents -- I shall write them too -- informing them of your decision to go to the School on Roke, if that is what you decide; or to the Great Port, if the Mage Restive will take you on, as I think he will, with my recommendation. But I advise against visiting home. The entanglement of family, friends, and so on is precisely what you need to be free of. Now, and henceforth." "She asked to," said the Doorkeeper. Lovers? she said.. "I think they fear them too," said Veil.. Magic was a wild talent before the time of Morred, who as both king and mage established intellectual and moral discipline for the art magic, gathering wizards to work together at the court for the general good and to study the ethical bases and constraints of their practice.. find him here. He was not here to find. There was no need to speak any name. There was nobody but. It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him.. which, when touched by light, opalesced like metal. The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived. Early rummaged in their cloudy, witless minds, had the youngest of them tortured, and then burned them where Losen could sit at his window and watch. The King needed some diversions..
