

PARTICIPATORY CONSTITUTIONAL CHANGE THE PEOPLE AS AMENDERS OF THE CONSTITUTION

strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took. Where the two paths met and joined to wind up to the heights of the Knoll, Thorion stopped and said, "My name's myself. True. But what's a name, then? It's what another calls me. If there was no other, only me, what would I want a name for?" "When the balance is wrong, holding still is not good. It must get more wrong," said she. The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back..asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew him home. A wise man, said Otter's mother Rose, surely a wise man. Nothing was too good for such a. It was clearing, and as the sun set the clouds broke all across the west, showing a golden sky behind the high dark curve of a hill.. "Wait. . . then what exactly do you do?" "So though there were men among us we were the women of the Hand," said Ember..since his days in a catboat on Havnor Bay..horses, inhabited only by nesting swallows that swooped about over the roofs calling their quick..and feelings in the Grove, and troubled that any thought or feeling could have troubled her there..He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke..Now, as otter, he was thinking only that he would like to stay otter, be otter, in the sweet brown water, the living river, forever. There is no death for an otter, only life to the end. But in the sleek creature was the mortal mind; and where the stream passes the hill west of Samory, the otter came up on the muddy bank, and then the man crouched there, shivering..plaza, fairly small. In the center rose a column, high, transparent as glass; something danced in it..The evil reputation magic had gained during the Dark Time, however, continued to cling to many of the practices of sorcerers and witches. Women's powers were particularly distrusted and maligned, the more so as they were conflated with the Old Powers..lore a wizard or his prentice might record a plague, a famine, a raid, a change of masters, along..moving in a line.. He can have it..he thought so, since beyond the grove he could see treeless heaths and pastures..They were only voices and shadows to each other..She stood up, almost as tall as he, and as straight. She said nothing for a minute and then spoke out in a high, harsh voice. "Come up on to the hill, Thorion," she said..Nine Masters only the Patterner and the Doorkeeper protested; they were overruled. For more than."Oh child, oh lamb," said Rush, taking her into her embrace; but though she hugged Rush, Dory did not bend..Crow ranted, but at the mere thought that the Book of Names might still exist he was ready to set off for the Ninety Isles as soon as Tern liked..That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away.Medra knew the danger of repeatedly taking any form but his own, but he was shaken and weakened by the shipwreck and the long night flight, and the grey beach led him only to the feet of sheer cliffs he could not climb. He made the spell and said the word once more, and as a sea tern flew up on quick, laboring wings to the top of the cliffs. Then, possessed by flight, he flew on over a shadowy sunrise land. Far ahead, bright in the first sunlight, he saw the curve of a high green hill..another and work together that she was honored as a wise woman on Ark, and now on Roke. She had."You fly?" He heard an eagle scream. He got to his feet. He leapt into the dark.."I was single. They picked unmarried ones. That is -- volunteers." "I know nothing," Irian said. She stepped forward again, facing the mage directly. Tell me who I am." "It's dangerous," Crow said, "it's pointless," but he made no further objection. They'll be along soon." .at the dock to take her, and the wind, I can tell you, will stand fair for Way." .creatures of the Grove. As he had said, he did not try to teach her. When she asked about the..was high time to go back and find out what was going on now..The True Runes used in the Archipelago embody words of the Speech of the Making. True Runes are not symbols only, but reifactors: they can be used to bring a thing or condition into being or bring about an event. To write such a rune is to act. The power of the action varies with the circumstances. Most of the True Runes are found only in ancient texts and lore-books, and used only by wizards trained in their use; but a good many of them, such as the symbol written on the door lintel to protect a house from fire, are in common use, familiar to unlearned people..Tern left late that year on his journey. He had with him a boy of fifteen, Mote, a promising weatherworker who needed training at sea, and Sava, a woman of sixty who had come to Roke with him seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though she had no wizardly gifts at all, she knew so well how to get a group of people to trust one another and work together that she was honored as a wise woman on Ark, and now on Roke. She had asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with her and bring them back to Roke when he returned. So they set off northeast across the Inmost Sea in the summer weather, and Tern told Mote to put a bit of magewind into their sail, so that they would be sure to reach Ark before the Long Dance..She said, "I know." .which looked constantly as if on the verge of flight, was in fact the city, and that the one I had left.shadow under the throat of her shirt.."What do you mean, what of it?
