He presented his lower throat, the loose, heavy skin. Semiconscious, I began to scratch."That indeed. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong..I did not know where to look. In front of me stood a man in something fluffy like fur.. "I think Irian of Way may have come to us seeking not only what she needs to know, but also what we need to know." The Doorkeeper's tone was equally sober, and his smile was gone. Yet he was certain, now, that Gelluk's ideas, the teaching he so eagerly imparted, had nothing to do with his power or with any true power. Mining and refining were indeed great crafts with their own mysteries and masteries, but Gelluk seemed to know nothing of those arts. His talk of the Allking and the Red Mother was mere words. And not the right words. But how did Otter know that?."She will when the time comes. But she has no part to play in your decision, Diamond. He had been trying to reweave one of the Acastan Spells, much broken and made powerless by the Emanations of Fundaur centuries ago. He had just begun to get a sense of the missing word that might fill one of the gaps, he almost had it, and-"You might keep some goats," Silence said.. "That's something else."..To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. Anieb's understanding was that lamp. Each step revealed the next step he must take, but he could never see the place where he was. He did not know what was coming next, and did not understand what he saw. But he saw it, and went forward, word by word.. "I think you feared him."..why? Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them? "Not if I carry a staff," he said. His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices. On his rides, he sometimes passed an old house on a hill among great oaks. When he turned off the. Early had to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master of his art. He found out what he could. Then the boy was no good for anything and had to be disposed of. It was humiliating, again, to be outwitted by the very stupidity of these people; and all he had learned about Roke was that the Hand was there, and a school where they taught wizardry. No wonder I kept thinking about Silence. I should send for him ... send to him ... No. What did Ard say? Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction..He came up on deck again. Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as she went about the house. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the shallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose.
